

08/18/19

Dear Kate,

It is through the “Seed the Change Program” that I am honored to “seed” in your future; although, this gift is only a small amount of the bountiful fruit you will reap, it is my privilege to help you get started. You are so wise! By you making a choice to invest in yourself and your future, you have made such a powerful, transformative choice for the wellbeing of your future, and those that will follow after you. You are making a choice that will bring financial stability and provide the resources to accomplish your goals. The reality is that money is one of the key to making possible our goals and wants in life, and it is so great that you are doing this at such an early age!!! If only I had this opportunity when I was younger! And so, it is my honor to help you in this process, and am so grateful to be part of “seeding” with you. It is you, who by making a choice to invest in your future, are making the way to have a better future.

With this said, I wish to dedicate this donation to my son, Addai Xavier Garcia, whom has given me the gift of knowing what unconditional love is, a thrive to making every day priceless, and an understanding that investing in others is a commitment I must take in effect, and so am beginning with you Kate, through the “Seed the Change Program”.

Many blessings to you,

*Gladys De La Torre*
