

Hi Jackie,

I couldn't pass up the opportunity to partner with you, as you invest in yourself and your future. **Seed The Change** is a great blessing for both of us.

As I write this letter I'm asking 62 year old me what would I tell 18 year old me and what wisdom can I impart to you?

As a young woman it is imperative that you supply and source for your present and your future. Given what I've learned over the years I can assure you that it is advantageous to invest and save early... as in now. I didn't know this at your age. I've seen the economy change drastically over the decades and because I lacked this knowledge, many times I made it through barely by the skin of my teeth. I promise you that continuing to save and invest will serve you well, no matter how the economy changes.

Being armed with this information now, I delight in sharing it with you and being here along the way as you save to supply for your future. I pray that all of your roads are paved with success. I will be here cheering you on.

I pray you're blessed always & in ALL ways,

Kathy Huck
